

## PRESS RELEASE

**Various Artists - The Very Best Father's Day Album In The World... Ever... NOT!  
884385560546**

First instalment of the NOT! Series – a humorous take on the genre of “Very Very Best of”s - marketed as a mid price download. At just £3.99 it’s an alternative to a standard present or card for the special day.

The album contains 15 tracks of great music from across the eclectic Gut Records catalogue. The twist is that the titles when read together tell the story of the day. In this case, it’s the child talking to the father, saying you’re useless, then admitting they are joking and then outlining the day he might have.
